Dr. Bill Brooks offers Radionics (frequency and vibrational) testing used detox foot pads. The test results indicate the intensity and presence of the following 25 potentially harmful substances that have been drawn out from your body and into the detox foot pads.

	Pad #1	Pad #2		Pad #1	Pad #2
Aluminum	___	___	Mercury	___	___
Antimony	___	___	Mold	___	___
Arsenic	___	___	Nickel	___	___
Asbestos	___	___	Parasites	___	___

Formaldehyde	___	___	Titanium	___	___
Gold	___	___	Uranium	___	___
Lead	___	___			

If there is any specific toxin you'd like to be tested for, beyond what is listed above, please let us know. Also, if you have been exposed to certain toxins (like agent orange, or heavy pesticide use), include that information here: _____

How to Have Used Foot Pads Tested:

Cut away adhesive and place used foot pads flat in a clean, clear zip-lock bag.

Do not fold the used patches.

Send check or money order for US \$25.00 (2 pads per person) in an envelope to:

Dr. Bill Brooks ND, DCH
146 Southern Run Road
Zirconia, NC 28790

Note: Researchers have determined the frequencies of many animals, vegetables and minerals, even heavy metals, toxins and parasites. By dialing into the Radionics equipment of a known frequency (ie. Mercury), a test can then be performed to indicate if that same frequency is present in your detox patches. The higher the number, the greater the presence of that substance in your used detox patch (these numbers are not percentages).
